

# 1<sup>st</sup> ISO-FOOD International Symposium on Isotopic and Other Techniques in Food Safety and Quality

**April 1-3, 2019, Piran, Slovenia**

[iso-food.academicevent.net](http://iso-food.academicevent.net)

This symposium brings together an interdisciplinary array of researchers, scientists, policy makers, and stakeholders to present advances in isotopic and chemical methods in food research, and to foster a lively and rewarding exchange of ideas and information. We warmly welcome prospective authors to present new research and to share their valuable experience with scientists and scholars.

## TOPICS

Food authenticity and traceability

Food safety and quality

Metrology in food

Food databases and semantics

Nanomaterials and nanotechnologies

Foodomics

## Deadlines and Key Dates

Registration opens: 28th November 2018

Abstract deadline: 1st February 2019
